Please use the check box below to indicate whether this is an administrative change:

Does your proposal represent an administrative change to the Aeronautical Information Publication (AIP)?

#### 5. Statement of Need

Please provide a brief 'Statement of Need' expressing explicitly what airspace issue or opportunity you are seeking to address. Your Statement of Need should clearly articulate the current situation, the issue (and the cause of it) to be resolved or the opportunity to be addressed along with any other factors or requirements. \*

This airspace change will propose to make changes to the Scottish TMA airspace and ATS route network. The proposed changes will interface with SIDs and STARs serving Glasgow airport. Glasgow airport is currently in the process of proposing changes to their SIDs/STARs/Arrival transitions. The changes proposed to the Scottish TMA by this ACP will be coordinated with, and will complement, the airport's proposals.

##### Current Situation

Conventional SIDs /STARs at Glasgow airport are not PBN and will soon be made obsolete by the planned decommissioning of several conventional navigation beacons.

##### Issue to be addressed

Consideration of traffic flows between Glasgow and Edinburgh (particularly in the vicinity of the LANAK hold). Introduction of improved holding arrangements and ATS routes will reduce conflicts by systemising the traffic, also reducing fuel burn & CO2 emissions for flights using these routes.

New routes may be required to provide network connectivity for new SIDs/ STARs/ Arrival transitions as proposed by Glasgow airport. This proposal forms part of the plan for delivering the Airspace Modernisation Strategy.

##### Cause

Legacy ATS structure requires modernisation in accordance with the Airspace Modernisation Strategy.

Please specify the altitudes (where applicable) affected by your Statement of Need:

- Surface to below 4,000 feet
- 4,000 feet to below 7,000 feet
- 7,000 feet to below 20,000 feet
- 20,000 feet and above

#### 6. Proposed Dates

Please provide your proposed date for the submission of your change proposal to the CAA. This should be the date on which you are expecting to submit your formal airspace change proposal to the CAA. Please note that your formal airspace change proposal must be submitted alongside all of the supporting documentation required by the CAA to complete our regulatory assessment of the Proposal; consequently the date on which you place in this field should represent the point at which you will have the formal airspace change proposal **and all** of the supporting documentation ready to submit to the CAA. This date is required to assist us with the allocation of the required CAA-resource to your proposal and therefore it is a key date in our planning process. Whilst we will try to accommodate your specified timescales, there may be occasions where it is not possible for us to do so given the large number of projects that are already 'in process'. You should also note that any changes to the above date may impact our ability to process your airspace change proposal within your preferred timescales. It should also be noted that from September 2018 any amendments submitted by a Data Originator or ANSP for onward promulgation in the UK IAIP will be subject to the Aeronautical Data Quality Requirements. See [Commission Regulation \(EU\) No 73/2010](#) (updated by 10/29/2014) and [CAP 1054: Aeronautical Information Management](#) guidance material for further information. These requirements will be discussed in greater detail during the course of your initial meeting with the CAA.

Confirmation of Understanding \*

Please provide your proposed date for the submission of your change proposal to the CAA. \*

09 Dec 2021

Please provide your proposed AIRAC effective date \*

AIRAC 13/2021

If this change forms a part of a modular airspace change proposal please provide the relevant title and further information below (Note we will require individual submissions for each module). \*

NOTE Effective date AIRAC 09/2022 (online form dates for effective date do not go beyond 2021)

Part of the FASIN SctMA airspace change programme.

If this change requires the implementation of a Five-Letter Name Code (5LNC) please specify your requirements below: \*

Several 5LNCs will be required. To be reserved in due course.
