Please use the check box below to indicate whether this is an administrative change:

☒ Does your proposal represent an administrative change to the Aeronautical Information Publication (AIP)?

5. Statement of Need

Please provide a brief 'Statement of Need' expressing explicitly what airspace issue or opportunity you are seeking to address. Your Statement of Need should clearly articulate the current situation, the issue (and the cause of it) to be resolved or the opportunity to be addressed along with any other factors or requirements. *

In order to facilitate the eventual removal of the Brecon DVOR (BCN) it is proposed to remove the en-route dependency from this facility. Any STARs that use this facility and not changed by previous DVOR removals will either be dis-established or made RNAV5 and designated by their start point in accordance with ICAO.

Where an important Descent Planning level would be removed by conforming to RNAV design criteria some STARs may be extended or new ones established to ensure these three levels remain in the AIP and on the STAR Charts. Any alternate STARs and Hold s will be removed.

In the event that the removal of the dependency results in truncation/rationalisation of existing STARs then any portions of those STARs will be replaced by an ATS Route or DCT.

Finally as part of this proposal NATS will take the opportunity to RNAV any remaining Cardiff & Bristol STARs whether dependent on BCN DVOR or not and designate in them in accordance with ICAO

Please specify the altitudes (where applicable) affected by your Statement of Need:

- ☐ Surface to below 4,000 feet
- ☐ 4,000 feet to below 7,000 feet
- ☒ 7,000 feet to below 20,000 feet
- ☒ 20,000 feet and above

6. Proposed Dates

Please provide your proposed date for the submission of your change proposal to the CAA. This should be the date on which you are expecting to submit your formal airspace change proposal to the CAA. Please note that your formal airspace change proposal must be submitted alongside all of the supporting documentation required by the CAA to complete our regulatory assessment of the Proposal; consequently the date on which you place in this field should represent the point at which you will have the formal airspace change proposal **and all** of the supporting documentation ready to submit to the CAA. This date is required to assist us with the allocation of the required CAA-resource to your proposal and therefore it is a key date in our planning process. Whilst we will try to accommodate your specified timescales, there may be occasions where it is not possible for us to do so given the large number of projects that are already 'in process' You should also note that any changes to the above date may impact our ability to process your airspace change proposal within your preferred timescales. It should also be noted that from September 2018 any amendments submitted by a Data Originator or ANSP for onward promulgation in the UK IAIP will be subject to the Aeronautical Data Quality Requirements. See [Commission Regulation \(EU\) No 73/2010](#) (updated by 1029/2014) and [CAP 1054: Aeronautical Information Management](#) guidance material for further information. These requirements will be discussed in greater detail during the course of your initial meeting with the CAA.
