

August 2020

There is currently a government consultation underway on the draft regulations and guidance made under the 2018 Space Industry Act.

The final publication of regulation, policy or guidance to fully inform Shetland Space Centre's airspace design has yet to occur.

After consideration of a letter published by the CAA highlighting this issue [Spaceport ACP Timeline Considerations, dated 7 Aug 2020] and consultation with the CAA, Shetland Space Centre is temporarily pausing its ACP.
