Subject: Bristow airspace application version 2

Morning [REDACTED],

Following a call with [REDACTED] this week in which we discussed options for airspace moving forward, we note the outcome of our initial meeting was perhaps not best suited to our proposed project activity. In line with CAP 1930 we therefore request to transition to an application for trials airspace. Work is underway with regard to presenting our proposal, a copy of which will be provided prior to the next meeting. I will upload previous meeting minutes for the record and please also accept this email as evidence of our requested change of direction.

Kind Regards,

[REDACTED]
