## **REMOVAL OF RAF LINTON ON OUSE MATZ AND ATZ STATEMENT OF NEED V2**

1. RAF Linton on Ouse has a standard MATZ which is 5NM centred on 54 02 57.81N 001 15 11.15W from the surface to 3000ft AAL. RAF Linton on Ouse has a stub aligned to runway 21 which extends 2.5NM either side of the extended centreline between 1000ft and 3000ft AAL. The RAF Linton on Ouse ATZ is a circle of 2NM radius centred on 54 02 57.81N 001 15 11.15W from the surface to 2000ft AAL

2. Due to the closure of the airfield in Dec 2020, the MATZ and ATZ are no longer required. The proposed AIRAC Date for disestablishment is 31 Dec 2020 and although these proposed changes will not be formalised until then, there will be no air traffic controllers available at Linton on Ouse to provide a MATZ or ATZ crossing service from 18 Dec 2020.
