Please use the check box below to indicate whether this is an administrative change:

☒ Does your proposal represent an administrative change to the Aeronautical Information Publication (AIP)?

5. Statement of Need

Please provide a brief 'Statement of Need' expressing explicitly what airspace issue or opportunity you are seeking to address. Your Statement of Need should clearly articulate the current situation, the issue (and the cause of it) to be resolved or the opportunity to be addressed along with any other factors or requirements. *

M140 and UM140 are not coincident: in order to facilitate the eventual removal of the U designator prefix of both UL18 and UM140 it is proposed that M140 which is published MID - VABIK re-designated as L18. Until the U designator prefix of UL18 is removed L18 will be partitioned at MID and BADSI (similar to the partitioning of L603 and P6).

In support of the above change and to also facilitate the eventual removal of the U designator prefix of UL18 it is proposed that the current portion of UL18 between MID and SFD be re-designated as Y803: Y803 is currently coincident with UL18 on the portion but directly beneath it so it is logical to extend Y803 upwards to replace that portion of UL18.

Given that the Holyhead and Irish Sea CTAs (DAP1916-428 refers) will also be in place on this same AIRAC (subject CAA approval) then L18 & UL18 will be transferred from ENR3.1/3.2 into ENR3.3 in accordance with ICAO Annexes.

The redesignations will not affect vertical profiles or lateral tracks of aircraft at any height and is purely an administrative change to the UK AIP. The UKSRD and any appropriate RAD restrictions will also be amended in line with above proposal.

Please specify the altitudes (where applicable) affected by your Statement of Need:

- ☐ Surface to below 4,000 feet
- ☐ 4,000 feet to below 7,000 feet
- ☒ 7,000 feet to below 20,000 feet
- ☒ 20,000 feet and above

6. Proposed Dates

Please provide your proposed date for the submission of your change proposal to the CAA. This should be the date on which you are expecting to submit your formal airspace change proposal to the CAA. Please note that your formal airspace change proposal must be submitted alongside all of the supporting documentation required by the CAA to complete our regulatory assessment of the Proposal; consequently the date on which you place in this field should represent the point at which you will have the formal airspace change proposal **and all** of the supporting documentation ready to submit to the CAA. This date is required to assist us with the allocation of the required CAA-resource to your proposal and therefore it is a key date in our planning process. Whilst we will try to accommodate your specified timescales, there may be occasions where it is not possible for us to do so given the large number of projects that are already 'in process'. You should also note that any changes to the above date may impact our ability to process your airspace change proposal within your preferred timescales. It should also be noted that from September 2018 any amendments submitted by a Data Originator or ANSP for onward promulgation in the UK IAIP will be subject to the Aeronautical Data Quality Requirements. See [Commission Regulation \(EU\) No 73/2010](#) (updated by 1029/2014) and [CAP 1054: Aeronautical Information Management](#) guidance material for further information. These requirements will be discussed in greater detail during the course of your initial meeting with the CAA.
