ACP-2021-048 EG TDA 597 activation dates for Aug and Sep 2022

Dear Stakeholders,

Further to my previous correspondence dated 7 Oct 2021¹ I am pleased to be able to provide expected dates and times of activations of EG TDA 597 in support of large-scale military training exercises.

It is anticipated that all previously agreed protocols and procedures contained within the AIP supplement 039/2021² will be followed. The anticipated dates and times are as follows:

Aug 2022

Tue 9th and Thu 11th – 2000-2315 UTC
Tue 16th, Thu 18th, Tue 23rd, Thu 25th – 0800-1115 UTC

Sep 2022

Tue 6th, Thu 8th, Mon 12th
Tue 13th, Wed 14th, Thu 15th, Fri 16th
Mon 19th, Tue 20th Wed 21st, Fri 23rd.

These activations are currently planned for 1030-1330 UTC **however** during further planning rounds, to satisfy key training objectives and allow partner nations to participate they may change by an hour **or** change to night activations. If night activations are required they are expected to be 1930-2230 UTC.

We aim to confirm times not less than one month prior to activation.

If you have any comments, queries or concerns please contact the sponsor using the details above by 31st January 2022.

Yours Sincerely,

Mike Parker, ACP Sponsor.
