1. Do you assess that the presented design options achieve the design principles? (Please elaborate as required)

Design Principle		Option 0	MALE 1	MALE 2	MALE 3	MALE 4	HALE 1	HALE 2
<b>a</b>	Provide a safe environment for airspace users							
<b>b</b>	Provide access to sufficient suitable airspace to enable efficient RPAS transition between the ground and medium/high-level transit routes							
<b>c</b>	Minimise the impact to other airspace users							
<b>d</b>	Adhere to FUA principles and strategy							
<b>e</b>	Where possible and practicable, accommodate the Airspace Modernisation Strategy							

<b>f</b>	Endeavour to make the airspace as accessible as possible							
<b>g</b>	Minimise the environmental impact of non-participating aircraft							

**2. Which design option do you believe best delivers the design principles?**
