

RAFAT Syerston TDA 2022-02 Assessment Meeting

Sqn Ldr Jim Turner

Agenda

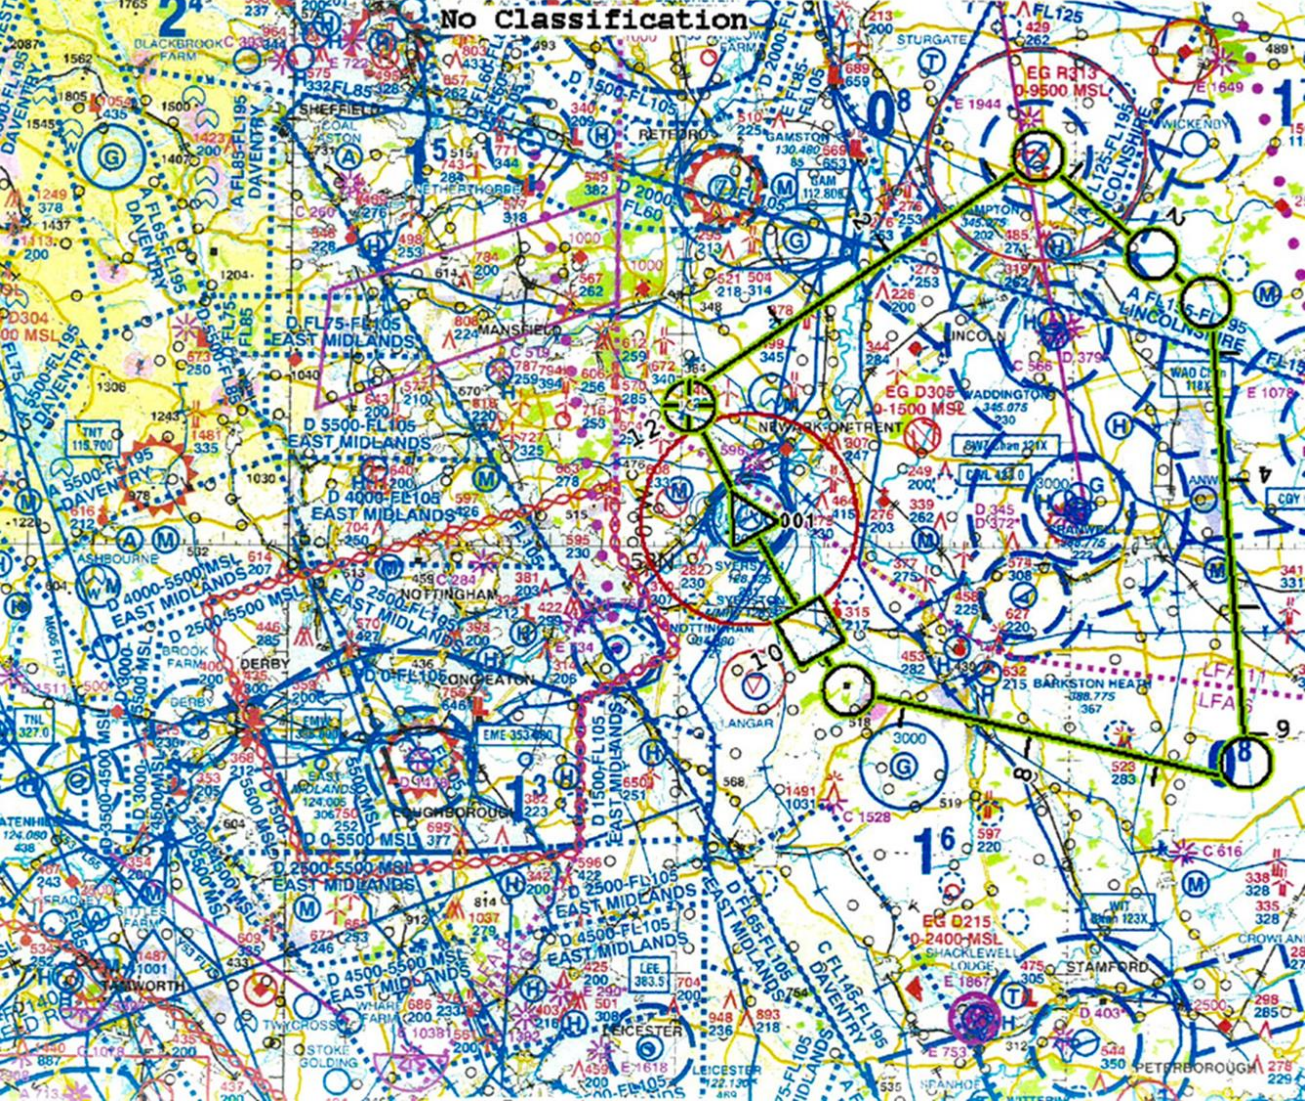

- 1. Introduction
- 2. Statement of Need (discussion and review)
- 3. Issues or opportunities arising from proposed change
- 4. Policy requirements:
 - TDA Policy statement
 - Stakeholder engagement
 - Safety assessment
- 5. Provisional timescales
- 6. Next steps
- 7. AOB

INTRO

Statement of Need

“The MOD is selling RAF Scampton which it hopes to complete in early 2023 and the Team will relocate to RAF Waddington prior to this date. Availability of EG R313 to the Red Arrows for its training over RAF Scampton will be contingent on the sale and the nature of the development delivered at the base. To cater for the eventuality that full use of EG R313 will no longer be available to the Team, the MOD is exploring alternative airspaces in Lincolnshire to enable the Red Arrows to continue to train; RAF Syerston has been identified as potentially suitable. To determine whether RAF Syerston is a viable option for establishment of new permanent airspace, a temporary airspace structure is required to test the site and assess what the impact would be on local aviation and ground stakeholders”.

No Classification

RAFAT Syerston TDA 2022-02

- Issues

- Choke point for GA
- EMA chainlink
- A-G Comms
- Noise footprint
- ACP for future use?

- Opportunities

- Safeguard Synchro Trg
- Resilience against loss of R313

RAFAT Syerston TDA 2022-02

Policy Requirements

- TDA Policy Statement
- Stakeholder Engagement
- Safety Assessment

RAFAT Syerston TDA 2022-02 Provisional Timelines

- 27 Apr 22-Assessment Mtg
- 4 Nov 22-Sponsor submission cut-off
- 25 Nov 22-AIC/SUP Finalised
- 15 Dec 22-Publication Date
- 9 Jan 23-TDA Start (90 days)

- Year-round operation

- 2022 is 58th season since 1965

- Winter training / display season / tours

- Engage with millions from the air, on the ground and online
