Subject: Update on Glasgow Airport's airspace change proposal

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Natalie,

Update on Glasgow Airport's airspace change proposal

I am emailing on behalf of Glasgow Airport with regard to its airspace change proposal (ACP). As you may be aware, we had been in the process of seeking a broad range of stakeholders' views on the way in which Glasgow Airport should progress its part of a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS). However, given the outbreak of COVID-19, Glasgow Airport took the decision in 2020 to postpone this work.

The airspace modernisation programme represents the biggest change in how the industry manages its airspace in over 50 years. It will enable us to better manage the airspace around the airport, without compromising on safety, delivering a number of potential benefits such as environmental improvements, noise management and minimising the amount of time aircraft queue, both in the air and on the ground.

For your reference in the coming months, we will be looking to restart our engagement activity regarding our airspace change proposal. Glasgow Airport is committed to engaging stakeholders as part of this process. As well as engaging with the Civil Aviation Authority (CAA), National Air Traffic Service (NATS), and the UK Department for Transport (DfT), we will be continuing to seek views from our local and regional stakeholders.

As we move forward given your role in the community, we would be keen to provide you with a briefing on the next stage of the airspace change process. We will be in contact in due course to arrange such a meeting with the project team. In the meantime, should you have any questions, please get in touch with our engagement team, either by emailing airspace@glasgowairport.com or contacting 0800 298 7040.

You can find out more about the Airspace Modernisation Strategy by visiting www.caa.co.uk/News/New-Airspace-Modernisation-Strategy-launched-to-overhaul-UK-airspace/ and Glasgow Airport's ACP at www.glasgowairport.com/airspace/.

Yours sincerely,

[REDACTED]

For and on behalf of Glasgow Airport

Hi [REDACTED]

[REDACTED] who works for AGS has advised that he can now do an on-site meeting with Neil. There was some uncertainty until recently about in-person meetings of this kind taking place, hence my delay in getting back to you.

If you could advise what dates work for Neil, I can look to get this confirmed with Peter.

Thanks,

■

Hi [REDACTED]

I just want to reiterate the offer to meet my colleagues about Glasgow Airport's Airspace Change Proposal. They would be happy to give Mr Bibby an update on stakeholder engagement and an overview of feedback generally.

Do let me know if this is still of interest.

Thanks,

Subject: Glasgow Airport starts Stage 2 of its Airspace Change Proposal

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Mr Bibby,

Glasgow Airport starts Stage 2 of its Airspace Change Proposal

I am emailing to offer you the opportunity to meet Glasgow Airport's engagement team to discuss the next steps in its Airspace Change Proposal (ACP) – a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS).

Background

Glasgow Airport, along with other airports in Scotland, is required by the Department for Transport (DfT) and Civil Aviation Authority (CAA) to review the departure and arrival routes and surrounding airspace of the airport. The regulatory requirements and guidance for this process is known as CAP1616.

In 2019 Glasgow Airport commenced Stage 1 of the CAP1616 process, which included engaging with a range of stakeholders and community representatives on the principles that should guide the airport's decision making when it comes to designing any new routes. The final Design Principles can be viewed [here](#).

Next steps

Glasgow Airport has successfully passed the Stage 1 of the ACP process and has now commenced Stage 2. This stage involves developing a comprehensive list of potential airspace change design options.

To continue to engage effectively with those stakeholders that were involved in Stage 1, Glasgow Airport is hosting stakeholder briefing sessions on the initial comprehensive list of options. The aim of these sessions is to gain feedback from stakeholders about Glasgow Airport's process for developing its design options. Specifically, stakeholders will be asked to consider if Glasgow Airport has taken full account of the Stage 1 Design Principles.

We remain committed to ensuring all stakeholders can provide feedback on how the airport should progress its part of the UK-wide Airspace Modernisation Strategy. As a local political representative, we would like to offer you an opportunity to meet our engagement team to discuss Glasgow Airport's options development process and how it is engaging stakeholders in Stage 2. To arrange a meeting, please email airspace@glasgowairport.com.

Further information

Should you have any questions, please view the attached FAQ document, which covers many of the most common queries. You can also find out more about the Airspace Modernisation Strategy [here](#) and Glasgow Airport's ACP [here](#).

If you would like information not covered in this email, please contact us on 0800 298 7040<tel:0800%20298%207040> or via email at airspace@glasgowairport.com.

Yours sincerely,

■

Dear [REDACTED]

Thank you for email dated 4th Feb. 2022.

I have to remind you that information requested from Glasgow Airport on more than one occasion has not been received regarding scaled drawings or maps of the various proposed possible changes of flight paths with sensitive ground details which could possibly be affected. The present flight path has should also be shown on these maps.

As you will realise this information is important in considering the potential disturbance which any change of flight path could cause. It also important for Glasgow Airport to supply estimates of aircraft height when using any of the proposed new flight paths. This information has also not been given.

The flight paths with which we are particularly concerned as the Community Council are departures on runway 05 and arrivals on runway 23.

Please forward this very necessary information as soon as possible.

Yours sincerely

[REDACTED]

Bearsden East Community Council (BECC)

Subject: Next steps for Glasgow Airport's Airspace Change Proposal

Dear [Redacted]

Next steps for Glasgow Airport's Airspace Change Proposal

Thank you to everyone who provided feedback on our approach to developing route options. The feedback period is now closed, but if you have any outstanding questions about our Airspace Change Proposal (ACP) to date, please email airspace@glasgowairport.com or call 0800 298 7040.

Stage 2 Continued – February to June 2022

We will review all of the feedback that we have received and refine or create new route options as appropriate. Our full Comprehensive List of Options will then be taken forward to the Design Principle Evaluation (Step 2A), where we assess each option to understand whether it has met, partially met, or not met the Design Principles. Following this we will commence Step 2B which consists of an initial appraisal of the route options. This step will determine what options Glasgow Airport proposes to take forward to Stage 3.

Before we can commence Stage 3, the CAA must approve Glasgow Airport's Design Principles Evaluation and Initial Options Appraisal. We expect to submit our Stage 2 documentation to the CAA for review in May 2022. We will send you a Stakeholder Engagement Report in advance of submission and also inform you when all of the submitted documentation is available to view on the CAA Airspace Change portal.

Starting Stage 3 – July 2022 to June 2023

If Glasgow Airport receives approval from the CAA, we can commence Stage 3 in July 2022 and start preparing for a full public consultation on our preferred route options. A key element of the public consultation is that it takes place when proposals are at a formative stage, so that feedback has the potential to affect the proposals. As such, Glasgow Airport is expecting the public consultation to take place in Q2 2023.

Further information

We'd like to thank all those who have contributed to date to Glasgow Airport's ACP; we remain committed to ensuring your organisation can provide feedback on how the airport should progress its part of the UK-wide Airspace Modernisation Strategy.

Should you have any questions, please view our FAQ page, which covers many of the most common queries. You can also find out more about the Airspace Modernisation Strategy here.

If you would like information not covered in this email, please contact us on 0800 298 7040 or via email at airspace@glasgowairport.com.

Yours sincerely,

[Redacted]

Hi [REDACTED]

My apologies for the delayed response. Firstly, just to say that we would welcome emails from Ms Don if any constituents have feedback or concerns.

I also wanted to let you know that Glasgow Airport held its first Stage 2 briefing session with stakeholders last week and that two more are to be held this week.

[REDACTED] and [REDACTED] from Glasgow Airport would like to meet with Ms Don or someone from her office in January if possible, so they can provide an update.

If you could provide some suitable dates for a meeting, it would be greatly appreciated.

Thanks,
[REDACTED]

Dear [REDACTED]

Thank you for contacting Natalie Don MSP with the information below. Natalie has read your email and she has asked that I respond to you on her behalf on this occasion.

Natalie would be extremely grateful to be kept up to dates in regards to these developments. We would also be grateful if Natalie or her office could contact yourselves if any constituents raise concerns with Natalie that you could hopefully try and address.

Natalie currently has an extremely hectic diary. However, we hope that we can arrange a mutually convenient time in the coming months and in the meantime

please do not hesitate to contact us with any updates.

Best wishes

Kind Regards

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Natalie,

Update on Glasgow Airport's airspace change proposal

I am emailing on behalf of Glasgow Airport with regard to its airspace change proposal (ACP). As you may be aware, we had been in the process of seeking a broad range of stakeholders' views on the way in which Glasgow Airport should progress its part of a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS). However, given the outbreak of COVID-19, Glasgow Airport took the decision in 2020 to postpone this work.

The airspace modernisation programme represents the biggest change in how the industry manages its airspace in over 50 years. It will enable us to better manage the airspace around the airport, without compromising on safety, delivering a number of potential benefits such as environmental improvements, noise management and minimising the amount of time aircraft queue, both in the air and on the ground.

For your reference in the coming months, we will be looking to restart our engagement activity regarding our airspace change proposal. Glasgow Airport is committed to engaging stakeholders as part of this process. As well as engaging with the Civil Aviation Authority (CAA), National Air Traffic Service (NATS), and the UK Department for Transport (DfT), we will be continuing to seek views from our local and regional stakeholders.

As we move forward given your role in the community, we would be keen to provide you with a briefing on the next stage of the airspace change process. We will be in contact in due course to arrange such a meeting with the project team. In the meantime, should you have any questions, please get in touch with our engagement team, either by emailing airspace@glasgowairport.com or contacting 0800 298 7040.

Best wishes,

█

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Mr Bibby,

Glasgow Airport starts Stage 2 of its Airspace Change Proposal

I am emailing to offer you the opportunity to meet Glasgow Airport's engagement team to discuss the next steps in its Airspace Change Proposal (ACP) – a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS).

Background

Glasgow Airport, along with other airports in Scotland, is required by the Department for Transport (DfT) and Civil Aviation Authority (CAA) to review the departure and arrival routes and surrounding airspace of the airport. The regulatory requirements and guidance for this process is known as CAP1616.

In 2019 Glasgow Airport commenced Stage 1 of the CAP1616 process, which included engaging with a range of stakeholders and community representatives on the principles that should guide the airport's decision making when it comes to designing any new routes. The final Design Principles can be viewed [here](#).

Next steps

Glasgow Airport has successfully passed the Stage 1 of the ACP process and has now commenced Stage 2. This stage involves developing a comprehensive list of potential airspace change design options.

To continue to engage effectively with those stakeholders that were involved in Stage 1, Glasgow Airport is hosting stakeholder briefing sessions on the initial comprehensive list of options. The aim of these sessions is to gain feedback from stakeholders about Glasgow Airport's process for developing its design options. Specifically, stakeholders will be asked to consider if Glasgow Airport has taken full account of the Stage 1 Design Principles.

We remain committed to ensuring all stakeholders can provide feedback on how the airport should progress its part of the UK-wide Airspace Modernisation Strategy. As a local political representative, we would like to offer you an opportunity to meet our engagement team to discuss Glasgow Airport's options development process and how it is engaging stakeholders in Stage 2. To arrange a meeting, please email airspace@glasgowairport.com.

Further information

Should you have any questions, please view the attached FAQ document, which covers many of the most common queries. You can also find out more about the Airspace Modernisation Strategy here and Glasgow Airport's ACP here.

If you would like information not covered in this email, please contact us on 0800 298 7040<tel:0800%20298%207040> or via email at airspace@glasgowairport.com.

Yours sincerely,

Subject: Glasgow Airport starts Stage 2 of its Airspace Change Proposal

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Mr Bibby,

Glasgow Airport starts Stage 2 of its Airspace Change Proposal

I am emailing to offer you the opportunity to meet Glasgow Airport's engagement team to discuss the next steps in its Airspace Change Proposal (ACP) – a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS).

Background

Glasgow Airport, along with other airports in Scotland, is required by the Department for Transport (DfT) and Civil Aviation Authority (CAA) to review the departure and arrival routes and surrounding airspace of the airport. The regulatory requirements and guidance for this process is known as CAP1616.

In 2019 Glasgow Airport commenced Stage 1 of the CAP1616 process, which included engaging with a range of stakeholders and community representatives on the principles that should guide the airport's decision making when it comes to designing any new routes. The final Design Principles can be viewed here.

Next steps

Glasgow Airport has successfully passed the Stage 1 of the ACP process and has now commenced Stage 2. This stage involves developing a comprehensive list of potential airspace change design options.

To continue to engage effectively with those stakeholders that were involved in Stage 1, Glasgow Airport is hosting stakeholder briefing sessions on the initial comprehensive list of options. The aim of these sessions is to gain feedback from stakeholders about Glasgow Airport's process for developing its design options. Specifically, stakeholders will be asked to consider if Glasgow Airport has taken full account of the Stage 1 Design Principles.

We remain committed to ensuring all stakeholders can provide feedback on how the airport should progress its part of the UK-wide Airspace Modernisation Strategy. As a local political representative, we would like to offer you an opportunity to meet our engagement team to discuss Glasgow Airport's options development process and how it is engaging stakeholders in Stage 2. To arrange a meeting, please email airspace@glasgowairport.com.

Further information

Should you have any questions, please view the attached FAQ document, which covers many of the most common queries. You can also find out more about the Airspace Modernisation Strategy here and Glasgow Airport's ACP here.

If you would like information not covered in this email, please contact us on 0800 298 7040<tel:0800%20298%207040> or via email at airspace@glasgowairport.com.

Yours sincerely,

Hi █

My apologies for the delayed response. Firstly, just to say that we would welcome emails from Ms Don if any constituents have feedback or concerns.

I also wanted to let you know that Glasgow Airport held its first Stage 2 briefing session with stakeholders last week and that two more are to be held this week.

█ and █ from Glasgow Airport would like to meet with Ms Don or someone from her office in January if possible, so they can provide an update.

If you could provide some suitable dates for a meeting, it would be greatly appreciated.

Thanks,

Dear [REDACTED]

Thank you for contacting Natalie Don MSP with the information below. Natalie has read your email and she has asked that I respond to you on her behalf on this occasion.

Natalie would be extremely grateful to be kept up to dates in regards to these developments. We would also be grateful if Natalie or her office could contact yourselves if any constituents raise concerns with Natalie that you could hopefully try and address.

Natalie currently has an extremely hectic diary. However, we hope that we can arrange a mutually convenient time in the coming months and in the meantime please do not hesitate to contact us with any updates.

Best wishes

Kind Regards

Subject: Update on Glasgow Airport's airspace change proposal

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Natalie,

Update on Glasgow Airport's airspace change proposal

I am emailing on behalf of Glasgow Airport with regard to its airspace change proposal (ACP). As you may be aware, we had been in the process of seeking a

broad range of stakeholders' views on the way in which Glasgow Airport should progress its part of a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS). However, given the outbreak of COVID-19, Glasgow Airport took the decision in 2020 to postpone this work.

The airspace modernisation programme represents the biggest change in how the industry manages its airspace in over 50 years. It will enable us to better manage the airspace around the airport, without compromising on safety, delivering a number of potential benefits such as environmental improvements, noise management and minimising the amount of time aircraft queue, both in the air and on the ground.

For your reference in the coming months, we will be looking to restart our engagement activity regarding our airspace change proposal. Glasgow Airport is committed to engaging stakeholders as part of this process. As well as engaging with the Civil Aviation Authority (CAA), National Air Traffic Service (NATS), and the UK Department for Transport (DfT), we will be continuing to seek views from our local and regional stakeholders.

As we move forward given your role in the community, we would be keen to provide you with a briefing on the next stage of the airspace change process. We will be in contact in due course to arrange such a meeting with the project team. In the meantime, should you have any questions, please get in touch with our engagement team, either by emailing airspace@glasgowairport.com or contacting 0800 298 7040.

You can find out more about the Airspace Modernisation Strategy by visiting www.caa.co.uk/News/New-Airspace-Modernisation-Strategy-launched-to-overhaul-UK-airspace/ and Glasgow Airport's ACP at www.glasgowairport.com/airspace/.

Yours sincerely,

For and on behalf of Glasgow Airport

RE: Glasgow Airport: extended feedback period for initial Illustrative Controlled Airspace	Email	BECC	03/03/2022 10:02	C-18182	<p>Dear [REDACTED]</p> <p>At this point in the Airspace Change Process (Stage 2: Develop and Assess), Glasgow Airport is required to present the initial comprehensive list of options to stakeholders, and request feedback on whether these options are comprehensive and have been developed to try and address the design principles.</p> <p>Glasgow Airport is currently processing this feedback and will then undertake a design principle evaluation to determine how each option responds to the design principles. This exercise is followed by an initial appraisal of the options, which will likely result in a shortlist that is carried forward to the next stage.</p> <p>During Stage 2 (as described above), the CAA specifies that we should not seek feedback on individual route options by examining their specific geographical position. As such, we cannot currently provide the detailed maps which you have requested.</p> <p>More detailed information will be available during the consultation stage (Stage 3), which Glasgow Airport expects to take place during Q2 2023. At this point, Bearsden East Community Council will have an opportunity to provide feedback on individual route options, using the information that will become available as the shortlisted options are further assessed.</p> <p>The Airspace Change process calls for incremental development of the detail of the options and, as such, additional information becomes available as the process progresses. I hope this helps to explain why some of the information you have requested is not available at this stage.</p> <p>Glasgow Airport's technical consultants would be happy to meet with you to talk you through the process in more detail, if that would be helpful.</p> <p>Best wishes,</p> <p>[REDACTED]</p> <p>For and on behalf of Glasgow Airport</p> <p>From: [REDACTED]</p> <p>Sent: 18 February 2022 21:14</p> <p>To: #GLA Airspace Change <airspace@glasgowairport.com></p> <p>Subject: Re: Glasgow Airport: extended feedback period for initial Illustrative Controlled Airspace</p> <p>CAUTION: External email. Unless you recognise the sender and know the content is safe, do not click links or open attachments. Please report anything suspicious or abusive by using the 'Report Phishing Email' button.</p> <p>[REDACTED], Glasgow Airport</p> <p>Dear [REDACTED]</p> <p>Thank you for email dated 4th Feb. 2022.</p> <p>I have to remind you that information requested from Glasgow Airport on more than one occasion has not been received regarding scaled drawings or maps of the various proposed possible changes of flight paths with sensitive ground details which could possibly be affected. The present flight path has should also be shown on these maps.</p> <p>As you will realise this information is important in considering the potential disturbance which any change of flight path could cause. It also important for Glasgow Airport to supply estimates of aircraft height when using any of the proposed new flight paths. This information has also not been given.</p> <p>The flight paths with which we are particularly concerned as the Community Council are departures on runway 05 and arrivals on runway 23.</p> <p>Please forward this very necessary information as soon as possible.</p> <p>Yours sincerely</p> <p>[REDACTED]</p>
---	-------	------	---------------------	---------	--

				Bearsden East Community Council (BECC)	<p>----- Original Message ----- From: Glasgow Airport To: [REDACTED] Sent: Friday, February 04, 2022 3:38 PM Subject: Glasgow Airport: extended feedback period for initial Illustrative Controlled Airspace</p> <p>Dear [REDACTED] Glasgow Airport: extended feedback period for initial Illustrative Controlled Airspace Thank you to everyone who provided feedback on our approach to developing route options. At our Stakeholder Briefing Sessions, we gave a presentation on our approach to developing route options. This presentation and the list of potential route options were then published on our website, to allow all stakeholders to provide feedback. In addition to this presentation, we gave a separate presentation to the General Aviation community (e.g. drone pilots and gliding clubs) on the initial Illustrative Controlled Airspace. We explained to stakeholders that this presentation was of specific relevance to the General Aviation community, but was available to view on the website. The presentation on the initial Illustrative Controlled Airspace was mistakenly removed from the website on 17th December 2021 during the feedback period, which ran from 25th November 2021 to 24th January 2022. Because of this, we are reopening the feedback period for all stakeholders for a further two weeks. The new closing date for feedback is 18th February 2022. This is to allow for interested stakeholders, particularly General Aviation stakeholders, to comment on the initial Illustrative Controlled Airspace if they have not already done so. You can view the presentation on the initial Illustrative Controlled Airspace and provide feedback by visiting https://glasgowairport.consultationonline.co.uk/feedback/. If you are unsure if you have already provided feedback on the initial Illustrative Controlled Airspace or if it is relevant to your organisation, please contact us at airspace@glasgowairport.com or on 0800 298 7040. We apologise for any inconvenience this mistake might have caused. Further information We'd like to thank all those who have contributed to date to Glasgow Airport's ACP; we remain committed to ensuring your organisation can provide feedback on how the airport should progress its part of the UK-wide Airspace Modernisation Strategy. Should you have any questions, please view our FAQ page, which covers many of the most common queries. You can also find out more about the Airspace Modernisation Strategy here. If you would like information not covered in this email, please contact us on 0800 298 7040 or via email at airspace@glasgowairport.com. Yours sincerely, [REDACTED], Glasgow Airport CONFIDENTIAL NOTICE: The information contained in this email and accompanying data are intended only for the person or entity to which it is addressed and may contain confidential and / or privileged material. Subject: Glasgow Airport starts Stage 2 of its Airspace Change Proposal

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Mr Bibby,

Glasgow Airport starts Stage 2 of its Airspace Change Proposal

I am emailing to offer you the opportunity to meet Glasgow Airport's engagement team to discuss the next steps in its Airspace Change Proposal (ACP) – a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS).

Background

Glasgow Airport, along with other airports in Scotland, is required by the Department for Transport (DfT) and Civil Aviation Authority (CAA) to review the departure and arrival routes and surrounding airspace of the airport. The regulatory requirements and guidance for this process is known as CAP1616.

In 2019 Glasgow Airport commenced Stage 1 of the CAP1616 process, which included engaging with a range of stakeholders and community representatives on the principles that should guide the airport's decision making when it comes to designing any new routes. The final Design Principles can be viewed [here](#).

Next steps

Glasgow Airport has successfully passed the Stage 1 of the ACP process and has now commenced Stage 2. This stage involves developing a comprehensive list of potential airspace change design options.

To continue to engage effectively with those stakeholders that were involved in Stage 1, Glasgow Airport is hosting stakeholder briefing sessions on the initial comprehensive list of options. The aim of these sessions is to gain feedback from stakeholders about Glasgow Airport's process for developing its design options. Specifically, stakeholders will be asked to consider if Glasgow Airport has taken full account of the Stage 1 Design Principles.

We remain committed to ensuring all stakeholders can provide feedback on how the airport should progress its part of the UK-wide Airspace Modernisation Strategy. As a local political representative, we would like to offer you an opportunity to meet our engagement team to discuss Glasgow Airport's options development process and how it is engaging stakeholders in Stage 2. To arrange a meeting, please email airspace@glasgowairport.com.

Further information

Should you have any questions, please view the attached FAQ document, which covers many of the most common queries. You can also find out more about the Airspace Modernisation Strategy [here](#) and Glasgow Airport's ACP [here](#).

If you would like information not covered in this email, please contact us on 0800 298 7040<tel:0800%20298%207040> or via email at airspace@glasgowairport.com.

Yours sincerely,

Dear [REDACTED]

Thank you for contacting Natalie Don MSP with the information below. Natalie has read your email and she has asked that I respond to you on her behalf on this occasion.

Natalie would be extremely grateful to be kept up to dates in regards to these developments. We would also be grateful if Natalie or her office could contact yourselves if any constituents raise concerns with Natalie that you could hopefully try and address.

Natalie currently has an extremely hectic diary. However, we hope that we can arrange a mutually convenient time in the coming months and in the meantime please do not hesitate to contact us with any updates.

Best wishes

Kind Regards

Subject: Update on Glasgow Airport's airspace change proposal

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Natalie,

Update on Glasgow Airport's airspace change proposal

I am emailing on behalf of Glasgow Airport with regard to its airspace change proposal (ACP). As you may be aware, we had been in the process of seeking a broad range of stakeholders' views on the way in which Glasgow Airport should progress its part of a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS). However, given the outbreak of COVID-19, Glasgow Airport took the decision in 2020 to postpone this work.

The airspace modernisation programme represents the biggest change in how the industry manages its airspace in over 50 years. It will enable us to better manage the airspace around the airport, without compromising on safety, delivering a number of potential benefits such as environmental improvements, noise management and minimising the amount of time aircraft queue, both in the air and on the ground.

For your reference in the coming months, we will be looking to restart our engagement activity regarding our airspace change proposal. Glasgow Airport is

committed to engaging stakeholders as part of this process. As well as engaging with the Civil Aviation Authority (CAA), National Air Traffic Service (NATS), and the UK Department for Transport (DfT), we will be continuing to seek views from our local and regional stakeholders.

As we move forward given your role in the community, we would be keen to provide you with a briefing on the next stage of the airspace change process. We will be in contact in due course to arrange such a meeting with the project team. In the meantime, should you have any questions, please get in touch with our engagement team, either by emailing airspace@glasgowairport.com or contacting 0800 298 7040.

You can find out more about the Airspace Modernisation Strategy by visiting www.caa.co.uk/News/New-Airspace-Modernisation-Strategy-launched-to-overhaul-UK-airspace/ and Glasgow Airport's ACP at www.glasgowairport.com/airspace/.

Yours sincerely,

For and on behalf of Glasgow Airport

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Mr Bibby,

Glasgow Airport starts Stage 2 of its Airspace Change Proposal

I am emailing to offer you the opportunity to meet Glasgow Airport's engagement team to discuss the next steps in its Airspace Change Proposal (ACP) – a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS).

Background

Glasgow Airport, along with other airports in Scotland, is required by the Department for Transport (DfT) and Civil Aviation Authority (CAA) to review the departure and arrival routes and surrounding airspace of the airport. The regulatory requirements and guidance for this process is known as CAP1616.

In 2019 Glasgow Airport commenced Stage 1 of the CAP1616 process, which included engaging with a range of stakeholders and community representatives on the principles that should guide the airport's decision making when it comes to designing any new routes. The final Design Principles can be viewed here.

Next steps

Glasgow Airport has successfully passed the Stage 1 of the ACP process and has now commenced Stage 2. This stage involves developing a comprehensive list of potential airspace change design options.

To continue to engage effectively with those stakeholders that were involved in Stage 1, Glasgow Airport is hosting stakeholder briefing sessions on the initial comprehensive list of options. The aim of these sessions is to gain feedback from stakeholders about Glasgow Airport's process for developing its design options. Specifically, stakeholders will be asked to consider if Glasgow Airport has taken full account of the Stage 1 Design Principles.

We remain committed to ensuring all stakeholders can provide feedback on how the airport should progress its part of the UK-wide Airspace Modernisation Strategy. As a local political representative, we would like to offer you an opportunity to meet our engagement team to discuss Glasgow Airport's options development process and how it is engaging stakeholders in Stage 2. To arrange a meeting, please email airspace@glasgowairport.com.

Further information

Should you have any questions, please view the attached FAQ document, which covers many of the most common queries. You can also find out more about the Airspace Modernisation Strategy here and Glasgow Airport's ACP here.

If you would like information not covered in this email, please contact us on 0800 298 7040<tel:0800%20298%207040> or via email at airspace@glasgowairport.com.

Yours sincerely,

Subject: Glasgow Airport starts Stage 2 of its Airspace Change Proposal

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Mr Bibby,

Glasgow Airport starts Stage 2 of its Airspace Change Proposal

I am emailing to offer you the opportunity to meet Glasgow Airport's engagement team to discuss the next steps in its Airspace Change Proposal (ACP) - a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS).

Background

Glasgow Airport, along with other airports in Scotland, is required by the Department for Transport (DfT) and Civil Aviation Authority (CAA) to review the departure and arrival routes and surrounding airspace of the airport. The regulatory requirements and guidance for this process is known as CAP1616.

In 2019 Glasgow Airport commenced Stage 1 of the CAP1616 process, which included engaging with a range of stakeholders and community representatives on the principles that should guide the airport's decision making when it comes to designing any new routes. The final Design Principles can be viewed [here](#).

Next steps

Glasgow Airport has successfully passed the Stage 1 of the ACP process and has now commenced Stage 2. This stage involves developing a comprehensive list of potential airspace change design options.

To continue to engage effectively with those stakeholders that were involved in Stage 1, Glasgow Airport is hosting stakeholder briefing sessions on the initial comprehensive list of options. The aim of these sessions is to gain feedback from stakeholders about Glasgow Airport's process for developing its design options. Specifically, stakeholders will be asked to consider if Glasgow Airport has taken full account of the Stage 1 Design Principles.

We remain committed to ensuring all stakeholders can provide feedback on how the airport should progress its part of the UK-wide Airspace Modernisation Strategy. As a local political representative, we would like to offer you an opportunity to meet our engagement team to discuss Glasgow Airport's options development process and how it is engaging stakeholders in Stage 2. To arrange a meeting, please email airspace@glasgowairport.com.

Hi [REDACTED]

Apologies for the delay in getting back to you.

Natalie would be available for a half hour virtual meeting on Wednesday 9th March at 11:45am. Is this suitable?

If not please let me know and we will see if we can arrange an alternative.

Hi [REDACTED]

My apologies for the delayed response. Firstly, just to say that we would welcome emails from Ms Don if any constituents have feedback or concerns.

I also wanted to let you know that Glasgow Airport held its first Stage 2 briefing session with stakeholders last week and that two more are to be held this week.

[REDACTED] and [REDACTED] from Glasgow Airport would like to meet with Ms Don or someone from her office in January if possible, so they can provide an update.

If you could provide some suitable dates for a meeting, it would be greatly appreciated.

Thanks,

[REDACTED]

Dear [REDACTED]

Thank you for contacting Natalie Don MSP with the information below. Natalie has read your email and she has asked that I respond to you on her behalf on this occasion.

Natalie would be extremely grateful to be kept up to dates in regards to these developments. We would also be grateful if Natalie or her office could contact yourselves if any constituents raise concerns with Natalie that you could hopefully try and address.

Natalie currently has an extremely hectic diary. However, we hope that we can arrange a mutually convenient time in the coming months and in the meantime please do not hesitate to contact us with any updates.

Best wishes

Kind Regards

Subject: Update on Glasgow Airport's airspace change proposal

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Natalie,

Update on Glasgow Airport's airspace change proposal

I am emailing on behalf of Glasgow Airport with regard to its airspace change proposal (ACP). As you may be aware, we had been in the process of seeking a broad range of stakeholders' views on the way in which Glasgow Airport should progress its part of a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS). However, given the outbreak of COVID-19, Glasgow Airport took the decision in 2020 to postpone this work.

The airspace modernisation programme represents the biggest change in how the industry manages its airspace in over 50 years. It will enable us to better manage the airspace around the airport, without compromising on safety, delivering a number of potential benefits such as environmental improvements, noise management and minimising the amount of time aircraft queue, both in the air and on the ground.

For your reference in the coming months, we will be looking to restart our engagement activity regarding our airspace change proposal. Glasgow Airport is committed to engaging stakeholders as part of this process. As well as engaging with the Civil Aviation Authority (CAA), National Air Traffic Service (NATS), and the UK Department for Transport (DfT), we will be continuing to seek views from our local and regional stakeholders.

As we move forward given your role in the community, we would be keen to provide you with a briefing on the next stage of the airspace change process. We will be in contact in due course to arrange such a meeting with the project team. In the meantime, should you have any questions, please get in touch with our engagement team, either by emailing airspace@glasgowairport.com or contacting 0800 298 7040.

You can find out more about the Airspace Modernisation Strategy by visiting www.caa.co.uk/News/New-Airspace-Modernisation-Strategy-launched-to-overhaul-UK-airspace/ and Glasgow Airport's ACP at www.glasgowairport.com/airspace/.

Yours sincerely,

Hi █

My apologies for the delayed response. Firstly, just to say that we would welcome emails from Ms Don if any constituents have feedback or concerns.

I also wanted to let you know that Glasgow Airport held its first Stage 2 briefing session with stakeholders last week and that two more are to be held this week.

█ and █ from Glasgow Airport would like to meet with Ms Don or someone from her office in January if possible, so they can provide an update.

If you could provide some suitable dates for a meeting, it would be greatly appreciated.

Thanks,

█

Dear █

Thank you for contacting Natalie Don MSP with the information below. Natalie has read your email and she has asked that I respond to you on her behalf on this occasion.

Natalie would be extremely grateful to be kept up to dates in regards to these developments. We would also be grateful if Natalie or her office could contact yourselves if any constituents raise concerns with Natalie that you could hopefully try and address.

Natalie currently has an extremely hectic diary. However, we hope that we can arrange a mutually convenient time in the coming months and in the meantime please do not hesitate to contact us with any updates.

Best wishes

Kind Regards

Subject: Update on Glasgow Airport's airspace change proposal

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Natalie,

Update on Glasgow Airport's airspace change proposal

I am emailing on behalf of Glasgow Airport with regard to its airspace change proposal (ACP). As you may be aware, we had been in the process of seeking a broad range of stakeholders' views on the way in which Glasgow Airport should progress its part of a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS). However, given the outbreak of COVID-19, Glasgow Airport took the decision in 2020 to postpone this work.

The airspace modernisation programme represents the biggest change in how the industry manages its airspace in over 50 years. It will enable us to better manage the airspace around the airport, without compromising on safety, delivering a number of potential benefits such as environmental improvements, noise management and minimising the amount of time aircraft queue, both in the air and on the ground.

For your reference in the coming months, we will be looking to restart our engagement activity regarding our airspace change proposal. Glasgow Airport is committed to engaging stakeholders as part of this process. As well as engaging with the Civil Aviation Authority (CAA), National Air Traffic Service (NATS), and the UK Department for Transport (DfT), we will be continuing to seek views from our local and regional stakeholders.

As we move forward given your role in the community, we would be keen to provide you with a briefing on the next stage of the airspace change process. We will be in contact in due course to arrange such a meeting with the project team. In the meantime, should you have any questions, please get in touch with our engagement team, either by emailing airspace@glasgowairport.com or contacting 0800 298 7040.

You can find out more about the Airspace Modernisation Strategy by visiting www.caa.co.uk/News/New-Airspace-Modernisation-Strategy-launched-to-overhaul-UK-airspace/ and Glasgow Airport's ACP at www.glasgowairport.com/airspace/.

Yours sincerely,

[REDACTED]

Hi [REDACTED]

Apologies for the delay in getting back to you.

Natalie would be available for a half hour virtual meeting on Wednesday 9th March at 11:45am. Is this suitable?

If not please let me know and we will see if we can arrange an alternative.

Hi [REDACTED]

My apologies for the delayed response. Firstly, just to say that we would welcome emails from Ms Don if any constituents have feedback or concerns.

I also wanted to let you know that Glasgow Airport held its first Stage 2 briefing session with stakeholders last week and that two more are to be held this week.

[REDACTED] and [REDACTED] from Glasgow Airport would like to meet with Ms Don or someone from her office in January if possible, so they can provide an update.

If you could provide some suitable dates for a meeting, it would be greatly appreciated.

Thanks,
[REDACTED]

Dear [REDACTED]

Thank you for contacting Natalie Don MSP with the information below. Natalie has read your email and she has asked that I respond to you on her behalf on this occasion.

Natalie would be extremely grateful to be kept up to dates in regards to these developments. We would also be grateful if Natalie or her office could contact yourselves if any constituents raise concerns with Natalie that you could hopefully try and address.

Natalie currently has an extremely hectic diary. However, we hope that we can arrange a mutually convenient time in the coming months and in the meantime please do not hesitate to contact us with any updates.

Best wishes

Kind Regards

Subject: Update on Glasgow Airport's airspace change proposal

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Natalie,

Update on Glasgow Airport's airspace change proposal

I am emailing on behalf of Glasgow Airport with regard to its airspace change proposal (ACP). As you may be aware, we had been in the process of seeking a broad range of stakeholders' views on the way in which Glasgow Airport should progress its part of a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS). However, given the outbreak of COVID-19, Glasgow Airport took the decision in 2020 to postpone this work.

The airspace modernisation programme represents the biggest change in how the industry manages its airspace in over 50 years. It will enable us to better manage the airspace around the airport, without compromising on safety, delivering a number of potential benefits such as environmental improvements, noise management and minimising the amount of time aircraft queue, both in the air and on the ground.

For your reference in the coming months, we will be looking to restart our engagement activity regarding our airspace change proposal. Glasgow Airport is committed to engaging stakeholders as part of this process. As well as engaging with the Civil Aviation Authority (CAA), National Air Traffic Service (NATS), and the UK Department for Transport (DfT), we will be continuing to seek views from our local and regional stakeholders.

As we move forward given your role in the community, we would be keen to provide you with a briefing on the next stage of the airspace change process. We will be in contact in due course to arrange such a meeting with the project team. In the meantime, should you have any questions, please get in touch with our engagement team, either by emailing airspace@glasgowairport.com or contacting 0800 298 7040.

You can find out more about the Airspace Modernisation Strategy by visiting www.caa.co.uk/News/New-Airspace-Modernisation-Strategy-launched-to-overhaul-UK-airspace/ and Glasgow Airport's ACP at www.glasgowairport.com/airspace/.

Yours sincerely,

For and on behalf of Glasgow Airport

Hi [REDACTED]

Further to my colleague [REDACTED] email below, unfortunately we will have to postpone tomorrow's planned meeting as [REDACTED] will not be able to attend; apologies for this. We would be very grateful if you can provide some alternative dates in the coming weeks so that we can reschedule. Once again, please pass on our apologies to Ms Don.

Best wishes,

[REDACTED]

Subject: RE: Natalie Don MSP: RE: Update on Glasgow Airport's airspace change proposal

Hi [REDACTED]

Thanks for the flexibility, it's much appreciated. [REDACTED] is free next Wednesday at 11:45am, so assuming he has recovered enough to take a meeting, then that date/time works.

I will get my colleague [REDACTED] to send round an updated invite and I will confirm with you early next week if [REDACTED] is able to attend, if that's OK?

Thanks,

[REDACTED]

Hi [REDACTED]

I have just left a voicemail on Ms Don's parliamentary office number. My apologies but both Glasgow Airport team members are now unable to attend this morning, as there are several staff off with Covid.

I am happy to meet with Ms Don today at 11:45am to discuss the Airspace Change Proposal (ACP). However, I wanted to let you know that I won't be able to answer queries about the day-to-day activity of the airport. As a consultant supporting Glasgow Airport with its ACP, I'm not involved in daily airport operations.

Alternatively, we could reschedule if Ms Don would prefer to wait until a member of the Glasgow Airport team is available, so that she can discuss both the ACP and airport operations more generally.

Just let me know which would be preferable and please pass on my apologies to Ms Don for any inconvenience this causes.

Thanks,

Hi there

I am really sorry to do this.

Neil has unfortunately had to self-isolate due to Covid and his self-isolation period will not finish by Monday.

Is it possible to rearrange this yet again?

Subject: Glasgow Airport starts Stage 2 of its Airspace Change Proposal

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Mr Bibby,

Glasgow Airport starts Stage 2 of its Airspace Change Proposal

I am emailing to offer you the opportunity to meet Glasgow Airport's engagement team to discuss the next steps in its Airspace Change Proposal (ACP) - a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS).

Background

Glasgow Airport, along with other airports in Scotland, is required by the Department for Transport (DfT) and Civil Aviation Authority (CAA) to review the departure and arrival routes and surrounding airspace of the airport. The regulatory requirements and guidance for this process is known as CAP1616.

In 2019 Glasgow Airport commenced Stage 1 of the CAP1616 process, which included engaging with a range of stakeholders and community representatives on the principles that should guide the airport's decision making when it comes to designing any new routes. The final Design Principles can be viewed here.

Next steps

Glasgow Airport has successfully passed the Stage 1 of the ACP process and has now commenced Stage 2. This stage involves developing a comprehensive list of potential airspace change design options.

To continue to engage effectively with those stakeholders that were involved in Stage 1, Glasgow Airport is hosting stakeholder briefing sessions on the initial comprehensive list of options. The aim of these sessions is to gain feedback from stakeholders about Glasgow Airport's process for developing its design options. Specifically, stakeholders will be asked to consider if Glasgow Airport has taken full account of the Stage 1 Design Principles.

We remain committed to ensuring all stakeholders can provide feedback on how the airport should progress its part of the UK-wide Airspace Modernisation Strategy. As a local political representative, we would like to offer you an opportunity to meet our engagement team to discuss Glasgow Airport's options development process and how it is engaging stakeholders in Stage 2. To arrange a meeting, please email airspace@glasgowairport.com.

Further information

Should you have any questions, please view the attached FAQ document, which covers many of the most common queries. You can also find out more about the Airspace Modernisation Strategy here and Glasgow Airport's ACP here.

If you would like information not covered in this email, please contact us on 0800 298 7040<tel:0800%20298%207040> or via email at airspace@glasgowairport.com.

Yours sincerely,

Hi [REDACTED]

I hope they recover soon. We can certainly reschedule, next Wednesday at 11:45 is free if that would be suitable?

Kind Regards

[REDACTED]

Hi [REDACTED]

I have just left a voicemail on Ms Don's parliamentary office number. My apologies but both Glasgow Airport team members are now unable to attend this morning, as there are several staff off with Covid.

I am happy to meet with Ms Don today at 11:45am to discuss the Airspace Change Proposal (ACP). However, I wanted to let you know that I won't be able to answer queries about the day-to-day activity of the airport. As a consultant supporting Glasgow Airport with its ACP, I'm not involved in daily airport operations.

Alternatively, we could reschedule if Ms Don would prefer to wait until a member of the Glasgow Airport team is available, so that she can discuss both the ACP and airport operations more generally.

Just let me know which would be preferable and please pass on my apologies to Ms Don for any inconvenience this causes.

Thanks,

[REDACTED]

Hi [REDACTED]

I just wanted to let you know that it will be [REDACTED] and [REDACTED] (AGS's technical airspace consultant for Glasgow Airport's

ACP) that will meet with Natalie tomorrow. [REDACTED] can longer make the meeting and sends his apologies.

Do let me know if you need anything ahead of the meeting.

Thanks,

[REDACTED]

Hi [REDACTED]

Both invites are accepted.

Thank you see you then.
Kind Regards

[REDACTED]

Hi [REDACTED]

You and Natalie should have just received a Teams invite for this from my colleague [REDACTED] (CCd). Please let us know if there are any issues with this. [REDACTED] and [REDACTED] look forward to meeting Natalie.

Best wishes,

[REDACTED]

For and on behalf of Glasgow Airport

Hi [REDACTED]

Wednesday 9th March at 11:45 works for us – many thanks. Would you like me to issue a Teams invite for this?

Thanks,
[REDACTED]

Hi [REDACTED]

Apologies for the delay in getting back to you.

Natalie would be available for a half hour virtual meeting on Wednesday 9th March at 11:45am. Is this suitable?

If not please let me know and we will see if we can arrange an alternative.

Hi [REDACTED]

Just following up on the below – please could you let me know when Natalie would be available for a virtual meeting to discuss Glasgow Airport’s ACP?

Many thanks,

[REDACTED]

Hi [REDACTED]

That’s not a problem – thanks for this. A virtual meeting would be fine; please could you let me know Natalie’s availability?

Best wishes,

Hi [REDACTED]

Apologies for the delay in getting back to you.

Natalie would still be happy to meet but could any meeting potentially be virtual? This would provide us with much more flexibility.
Best wishes

Hi [REDACTED]

My apologies for the delayed response. Firstly, just to say that we would welcome emails from Ms Don if any constituents have feedback or concerns.

I also wanted to let you know that Glasgow Airport held its first Stage 2 briefing session with stakeholders last week and that two more are to be held this week.

[REDACTED] and [REDACTED] from Glasgow Airport would like to meet with Ms Don or someone from her office in January if possible, so they can provide an update.

If you could provide some suitable dates for a meeting, it would be greatly appreciated.

Thanks,

[REDACTED]

Dear [REDACTED]

Thank you for contacting Natalie Don MSP with the information below. Natalie has read your email and she has asked that I respond to you on her behalf on this occasion.

Natalie would be extremely grateful to be kept up to dates in regards to these developments. We would also be grateful if Natalie or her office could contact yourselves if any constituents raise concerns with Natalie that you could hopefully try and address.

Natalie currently has an extremely hectic diary. However, we hope that we can arrange a mutually convenient time in the coming months and in the meantime please do not hesitate to contact us with any updates.

Best wishes

Kind Regards

[REDACTED]

Subject: Update on Glasgow Airport's airspace change proposal

CAUTION: This e-mail originated from outside of The Scottish Parliament. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Natalie,

Update on Glasgow Airport's airspace change proposal

I am emailing on behalf of Glasgow Airport with regard to its airspace change proposal (ACP). As you may be aware, we had been in the process of seeking a broad range of stakeholders' views on the way in which Glasgow Airport should progress its part of a UK-wide initiative to modernise the country's airspace, known as the Airspace Modernisation Strategy (AMS). However, given the outbreak of COVID-19, Glasgow Airport took the decision in 2020 to postpone this work.

The airspace modernisation programme represents the biggest change in how the industry manages its airspace in over 50 years. It will enable us to better manage the airspace around the airport, without compromising on safety, delivering a number of potential benefits such as environmental improvements, noise management and minimising the amount of time aircraft queue, both in the air and on the ground.

For your reference in the coming months, we will be looking to restart our engagement activity regarding our airspace change proposal. Glasgow Airport is committed to engaging stakeholders as part of this process. As well as engaging with the Civil Aviation Authority (CAA), National Air Traffic Service (NATS), and the UK Department for Transport (DfT), we will be continuing to seek views from our local and regional stakeholders.

As we move forward given your role in the community, we would be keen to provide you with a briefing on the next stage of the airspace change process. We will be in contact in due course to arrange such a meeting with the project team. In the meantime, should you have any questions, please get in touch with our engagement team, either by emailing airspace@glasgowairport.com or contacting 0800 298 7040.

You can find out more about the Airspace Modernisation Strategy by visiting www.caa.co.uk/News/New-Airspace-Modernisation-Strategy-launched-to-overhaul-UK-airspace/ and Glasgow Airport's ACP at www.glasgowairport.com/airspace/.

Yours sincerely,

For and on behalf of Glasgow Airport
