Subject: RE: 20220621-TDA 597 Activation

Sir,

Affirm, tracking this one. Will be part of the wider ops brief and FA will be directed to contact Newcastle each execute.

Regards,

[REDACTED]

[REDACTED]

The CRC will brief Newcastle on the morning of each execution day on the plan and expected activity verbally via landline. That is confirmed as it will be one of my students doing it or the CRC Fighter Allocator. Does that meet the requirement?

[REDACTED]

I believe you were tracking this as a task on us, but if not please not for any internal Ex briefs.

Regards

[REDACTED] good afternoon.

Could I please ask if confirmation was ever received that the Ops Team will conduct a daily Newcastle briefing for each mission prior to the activation of TDA 597 in August?

Confirmation of this engagement appreciated.

Regards

[REDACTED]

I haven't directly as 19 Sqn ASACS at Boulmer said they would perform the liaison task with Newcastle back in our C2 planning meeting in Feb 22. Specifically they were talking of briefing Newcastle for each msn on the morning of that msn.

[REDACTED] one for you to pass on to the Ops team now we have confirmation of TDA 597 for SW22-2, although it is relevant for all SW22 msns.

However, thank you for the contact details. As the Exercise Mission Director I will give [REDACTED] a courtesy call about both SW22-1 when we are using normal airspace and SW22-2 when we have TDA597. If you have his phone number that would be great, if not then no worries I'll email him direct and get it. Thanks again for your help.

Yours

[REDACTED]

Have you included Newcastle Airport in any of your planning meetings yet? I am going to write to them this week to let them know about the upcoming activations and I know they will be keen to know ingress/egress points in particular. As one of the key stakeholders it's important we keep them informed as it will make future activations and the consultation for the permanent solution smoother.

Their ATC manager is [REDACTED] his email address is [REDACTED]
[REDACTED] It would be greatly appreciated if you or one of the team liaises with him,

thanks

Regards
