Subject: RE: 20220117-ACP-2021-048-Timings

Thanks [REDACTED]

As for August, while the dates are far from ideal the timings are close the best we (at NCL) can hope for; although as you will have seen in the press the whole of Europe's Summer schedules are up in the air and we remain entirely flexible. Similar timings in Sept would be appreciated.

Will hope to hear from someone asap over entry/exit routes/points before signing and getting the copy back to [REDACTED]

Ta

█ thanks for the chat ref the proposed forthcoming activation of TDA EG597.

I've been looking through the historic emails and came across this one (and the attached).

The background I have suggests that it should have been sent through to you (the attached references the dates in August 22).

Would you suggest that I call in future in order to confirm potential activation periods?

Completely understand the commercial pressures you are under.

Regards
