The flight planning remarks for M185 between LUGIS and DESNA and N6 between PILIP and TIGGY are not consistent with M184 between KOTEM and AVANT where they interact with EGD037, EGD038 and EGD039.

This ACP seeks to align these by including the following remarks against these routes:

M185 - Route Remarks: LUGIS - DESNA FL 195 and above CDR, below FL 195 unavailable for Flight Planning but may be used tactically H24.

N6 - Route Remarks: PILIP - TIGGY FL 195 and above CDR, below FL 195 unavailable for Flight Planning but may be used tactically H24.

In accordance with CAP1616 Table A2 this ACP is considered a Level 0 proposal.

Please note that the Airspace Regulation team will contact you to acknowledge receipt of your Statement of Need and to confirm the unique ACP reference number (ACP-YYYY-NNN) allocated to this submission. Following receipt of your unique ACP reference number, you will be required to create an associated airspace change proposal on the [CAA's Airspace Change Portal](#). Please refer to CAP 1706: CAA Airspace Change Portal – Sponsor Training Manual provides for further information/guidance on how to use the Airspace Change Portal.

Given the high number of new airspace change proposals (ACP), together with those proposals which are already in the system, it is possible that the proposal may not be assigned to a Technical Regulator/Account Manager immediately following submission of the Statement of Need. New proposals are allocated on a first come first served basis, unless the proposal is directly related to safety or national security matters, or as directed by the Secretary of State for Transport's priorities.

Once your submission has been assigned to an Account Manager/Case Officer, arrangements will be made for you to attend an Assessment Meeting. One of the key outputs from this meeting will be an indicative timeline for the proposed PPR. For Permanent changes, to enable the CAA to consider your proposed timescales, you will be expected to present dates for the following milestones at the Assessment Meeting:

- DEFINE Gateway
- DEVELOP & ASSESS Gateway
- CONSULT Gateway
- Formal Airspace Change Proposal Submission
- Target AIRAC

The CAA holds Gateway Assessment Meetings on a monthly basis and the annual schedule is published on the [CAA website](#).

Finally, you should also note that from September 2018 any amendments submitted by a Data Originator or ANSP for onward promulgation in the UK IAIP will be subject to the Aeronautical Data Quality Requirements. These requirements will be discussed in greater detail during the course of your initial meeting with the CAA.
