Subject: RE: [External] LJA ACP reintegration in to the Masterplan
Attachments: ACOG Advice - Reintegration of LJA into the Airspace Masterplan.pdf
Categories: FASI

Hi [Redacted]

Following recent discussions I am writing to confirm that the co-sponsors have accepted ACOGs advice received in October 2022 regarding LJA's reintegration into the masterplan programme. It is understood that LJA will now seek to unpause their ACP at an earlier stage (Stage 2 of the CAP1616 process) in order to allow necessary design collaboration with relevant sponsors to take place, as is envisaged by the masterplan process. On this basis the co-sponsors can now also confirm that FASI grant funding has been made available in order for LJA to revisit and undertake relevant work in Stage 2 of the CAP1616 process.

Thanks

Regards
