

# COVERAGE REPORT

Public Consultation for  
21 RNAV Airspace Change Proposal  
[ACP-2019-86]

11th September – 9th October 2023

Prepared by the Communications Team

# OWNED CHANNELS

The consultation was advertised across each of the airport's owned external channels including:

- [Facebook](#)
- [X / Twitter](#)
- [Website](#) – [bigginhillairport.com](https://bigginhillairport.com)

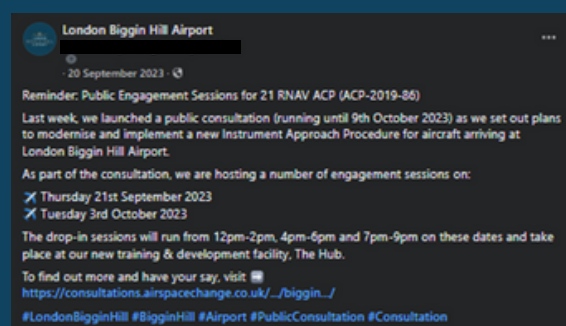

Click on each channel to view the content

In addition to the initial content linked above, we shared reminder posts on 20th September and 2nd October.

*The consultation also featured in the airport's internal newsletter - 'Aerogram' - to encourage colleagues to spread the word about the consultation taking place & ensuring they can direct enquiries to the appropriate place.*

### What is happening?

#### PUBLIC CONSULTATION – 21 RNAV ACP ACP-2019-86

London Biggin Hill Airport is hosting a public consultation regarding proposed airspace changes and modernisation of its 21 RNAV approach. The consultation will run from Monday 11th September to Monday 9th October 2023. To learn more and have your say, register for an online session or attend one of the walk-in sessions. Visit

[www.bigginhillairport.com/airspace-change](http://www.bigginhillairport.com/airspace-change) for more information.

## Bromley Radio

Transcript of our public notice as featured on local radio station, Bromley Radio:

### Radio transcript for 21 RNAV

London Biggin Hill airport is consulting on the modernisation and implementation of a new 'Instrument Approach Procedure' for aircraft arriving at London Biggin Hill Airport. Simply put – an Instrument Approach Procedure is a procedure a pilot can fly when the weather does not allow the pilot to fly visually, due to cloud or when the visibility is low.

The airports current system for this procedure uses ground-based radio beacons which are reaching the end of life, so will no longer be available. The consultation relates to the introduction of a new system which will use satellite technology.

The change purely relates to how aircraft navigate, not where they fly, so there will be no discernible difference noticed from the ground.

The consultation runs from Monday 11th September to Monday 9th October 2023. You can visit [www.bigginhillairport.com/airspace-change](http://www.bigginhillairport.com/airspace-change) to learn more and have your say. The website also has more information on how to register for an online session and the dates and times of several walk-in sessions held at the airport, where you can learn more about the plans and meet the team.

## Posters / Leaflets

We printed posters and displayed on a number of local noticeboards, including at the local library & swimming pool:
