Subject: UC ACP-2023-022: Stage 3, Consult

Importance: Normal

Sensitivity: None

Dear Stakeholder,

I am writing to you on behalf of the Ministry of Defence (MOD), since you were identified as a stakeholder in an airspace change proposal in the vicinity of RAF Marham which was commenced in 2023 (reference number ACP-2023-022). Today, 11 June 2024, a consultation period for the airspace change proposal has begun.

The airspace change will enable the activation of a nominated permanent diversion for the Remotely Piloted Air System (RPAS), Protector, when operating from its Main Operating Base (MOB) when it commences Test and Evaluation flying in Summer 2024.

As a previously identified stakeholder, you are likely to have been involved in the previous 2 stages of the ACP; several of you providing valuable feedback in the development of the design principles and airspace design options. For Stage 3 the Change Sponsor is looking to you, as an over-arching body and key stakeholder, to consider the information provided in the consultation material and provide your feedback, or feedback on behalf

of your members.

In accordance with UK regulation this consultation will be undertaken through electronic communication. Details of the consultation and how to provide feedback can be found on the Citizen Space portal at the link [here](#). Additionally, all supplementary documentation published so far can be found on the CAA ACP Portal [here](#).

An online drop-in event is being held on 11 July 2024 between 0900 and 1200. The session will be open for 3 hours to facilitate flexibility for participants to drop in at a convenient time. A presentation will be delivered hourly at 09.00, 10.00 and 11.00, and will offer a simplified precis of the proposed change and explain the methods by which interested parties can submit feedback: stakeholders will not be able to submit feedback through the webinar, but will be encouraged to utilise the Citizen Space online portal. The event is open for anyone to attend with details below:

To join the meeting via Teams:

Meeting ID: 364 986 471 595

Passcode: HLtLZn

To Dial-in by phone:

Dial: +44 20 3443 8728#

Phone conference ID: 242 913 365#

To register interest in the Webinar and to send questions in advance please do so via this

email address - UASCDC-ACP@qinetiq.com

For more information please read the Consultation material which can be found on the CAA ACP Portal.

Deadline for submission of feedback is **Friday 2 August 2024**.

Kind Regards,

ACP Manager

Good afternoon [REDACTED]

It has just come to our attention that previous emails to you regarding the ACP referenced below have failed to deliver. Please accept my sincere apologies for this error, which was a result of inputting an incorrect email address.

You will see from the correspondence below that we are half way through the consultation period for the Airspace Change Proposal and the on-line drop-in event took place this morning. Should you wish to contribute to the consultation and provide feedback, hopefully 2 Aug is an achievable deadline in order for you to do so. However, if you require additional information to help inform your submission, please let me know by return of email and every effort will be made to accommodate your requirements by means of direct communication.

Kind regards,

[REDACTED]

Cc: UASCDC-ACP <UASCDC-ACP@qinetiq.com>

Subject: UC ACP-2023-022: Stage 3, Consult

Dear Stakeholder,

I am writing to you on behalf of the Ministry of Defence (MOD), since you were identified as a stakeholder in an airspace change proposal in the vicinity of RAF Marham which was commenced in 2023 (reference number ACP-2023-022). Today, 11 June 2024, a consultation period for the airspace change proposal has begun.

The airspace change will enable the activation of a nominated permanent diversion for the Remotely Piloted Air System (RPAS), Protector, when operating from its Main Operating Base (MOB) when it commences Test and Evaluation flying in Summer 2024.

This email is targeted at non-aviation stakeholders, primarily national and local environmental organisations and local and regional authorities (e.g. parish and county councils). Not all of the addressees were involved in the first 2 stages of this airspace change. For Stage 3 the Change Sponsor is looking to you, as an over-arching body, to consider the information provided in the consultation material and provide feedback on behalf of your members and constituents.

In accordance with UK regulation this consultation will be undertaken through electronic communication. Details of the consultation and how to provide feedback can be found on the Citizen Space portal at the link [here](#). Additionally, all supplementary documentation published so far can be found on the CAA ACP Portal [here](#).

An online drop-in event is being held on 11 July 2024 between 0900 and 1200. The session will be open for 3 hours to facilitate

flexibility for participants to drop in at a convenient time. A presentation will be delivered hourly at 09.00, 10.00 and 11.00, and will offer a simplified precis of the proposed change and explain the methods by which interested parties can submit feedback: stakeholders will not be able to submit feedback through the webinar, but will be encouraged to utilise the Citizen Space online portal. The event is open for anyone to attend with details below:

To join the meeting via Teams:

Meeting ID: 364 986 471 595

Passcode: HLtLZn

To Dial-in by phone:

Dial: +44 20 3443 8728#

Phone conference ID: 242 913 365#

To register interest in the Webinar and to send questions in advance please do so via this

email address - UASCDC-ACP@qinetiq.com

For more information please read the Consultation material which can be found on the CAA ACP Portal. Deadline for submission of feedback is **Friday 2 August, 2024**.

Should you no longer wish to receive updates on this airspace change, please reply to this email and you will be removed from future mailings.

If you are a local or regional authority, you might find it useful to pass the details onto your planning department to determine if it is of interest to your organisation

Kind Regards,

ACP Manager

Good morning [REDACTED]

Thank you for responding to the Citizen Space survey for ACP-2023-022 (RPAS operations to/from a nominated diversion airfield). Your response has highlighted to us that the link to the documentation accompanying this consultation is not clear, and so I have edited the introductory text in the survey to make it more obvious. Please see this link here: [Airspace change proposal public view \(caa.co.uk\)](https://www.caa.co.uk) for all the relevant documentation.

We look forward to hearing your views on this ACP.

Kind regards,

I am writing to you on behalf of the Ministry of Defence (MOD), since you were identified as a stakeholder in an airspace change proposal in the vicinity of RAF Marham which was commenced in 2023 (reference number ACP-2023-022). Today, 11 June 2024, a consultation period for the airspace change proposal has begun.

The airspace change will enable the activation of a nominated permanent diversion for the Remotely Piloted Air System (RPAS), Protector, when operating from its Main Operating Base (MOB) when it commences Test and Evaluation flying in Summer 2024.

As a previously identified stakeholder, you are likely to have been involved in the previous 2 stages of the ACP; several of you providing valuable feedback in the development of the design principles and airspace design options. For Stage 3 the Change Sponsor is looking to you, as an over-arching body and key stakeholder, to consider the information provided in the consultation material and provide your feedback, or feedback on behalf of your members.

In accordance with UK regulation this consultation will be undertaken through electronic communication. Details of the consultation and how to provide feedback can be found on the Citizen Space portal at the link [here](#). Additionally, all supplementary documentation published so far can be found on the CAA ACP Portal [here](#).

An online drop-in event is being held on 11 July 2024 between 0900 and 1200. The session will be open for 3 hours to facilitate flexibility for participants to drop in at a convenient time. A presentation will be delivered hourly at 09.00, 10.00 and 11.00, and will offer a simplified precis of the proposed change and explain the methods by which interested parties can submit feedback: stakeholders will not be able to submit feedback through the webinar, but will be encouraged to utilise the Citizen Space online portal. The event is open for anyone to attend with details below:

To join the meeting via Teams:

Meeting ID: 364 986 471 595

Passcode: HLtLZn

To Dial-in by phone:

Dial: +44 20 3443 8728#

Phone conference ID: 242 913 365#

To register interest in the Webinar and to send questions in advance please do so via this

email address - UASCDC-ACP@qinetiq.com

For more information please read the Consultation material which can be found on the CAA ACP Portal.

Deadline for submission of feedback is **Friday 2 August 2024**.

Kind Regards,

ACP Manager

Hi [REDACTED]

Authorisation has been received from the CAA to commence Consultation for the ACP. Due to a delay in receipt of approval, the start date is adjusted to Tuesday 11 June 2024. I have amended in the text attached and also inserted the link to the Citizen Space portal.

Please could you arrange for the press release to go out ASAP and retain copies of any emails sent as well as screenshots of social media posts; these required by the CAA as record of engagement.

Another press release is requested half way through the consultation (3 July 2024) as a reminder to stakeholders for their feedback. I'll be in touch nearer the time to confirm this will go ahead.

Thanks again for your assistance. If you have any queries, don't hesitate to get in touch.

Hi [REDACTED]

How are you getting on with preparing the press release – almost ready to publish?

We had some feedback from the CAA and they have pushed a delay to consultation launch to 10 June. I'll get back to you with confirmed dates for start and end dates. I'll also send the Citizen Space link next week.

Please could you send over the intended statement/content early ASAP so we can take a quick look.

Hi [REDACTED]

As promised, I've attached the PDF of the press releases for WAD airspace change, plus a Word doc containing info regarding the Marham one.

Please could you take a look and let me know if you need any additional info in order to tweak, refine or overhaul as you see fit! I've left the webinar joining instructions but with strikethrough in case you felt it should be included. I've highlighted where dates/links are yet to be confirmed and we'll advise these as soon as possible (it might be on/after 7 June if there is delay from CAA). Let me know if there is any additional info you'd like for inclusion.

The CAA will require evidence of the press release activity, so if you could retain/forward copies of emails and screenshots at both the launch and reminder, that would be great.

[REDACTED]

Subject: UC FW: Airspace Change at RAF Marham - public consultation

Good afternoon,

I am currently working for QinetiQ on behalf on the MOD as part of the airspace integration team for Protector. We are in the process of an airspace change proposal (ACP) to the CAA, which would facilitate access for Protector to RAF Marham as the nominated diversion airfield. The proposal has progressed to Stage 3, Consult, whereby the public and wider community are invited to comment on the airspace proposed (key aviation and local authority stakeholders have already been contributing through engagement at all stages of the proposal to date).

The CAA require suitable, proportionate engagement activity to ensure all potentially impacted stakeholders are offered; for previous ACPs this has been achieved via a press distributed to local media outlets (RAF unit & ISTAR HQ social media platforms, local TV, radio, newspapers etc.). During an initial meeting with RAF Marham MCO today (Alison Childerhouse; cc'd), a similar approach was suggested for the ARF Marham airspace, which was agreed as appropriate.

It is anticipated that the CAA might approve the consultation to commence as early as 3 June. Therefore, I am seeking assistance in ensuring that the press release is authorised/distributed by correct channels. As [REDACTED] has indicated that she can undertake this for RAF Marham, I have attached examples from similar airspace at RAF Waddington for your awareness and consideration as to whether any additional action might be required by your OAR (apologies that the FB page is clipped).

I would be grateful if you could let me know ASAP of any issues/ concerns/further activity/ permissions I should be addressing. If you require any further information regarding the proposal, or would like to see details specific to this press release, please do let me know. Otherwise, I intend to provide Alison with the data required to progress with an engagement launch on or around 3 June.

Many thanks,

[REDACTED]

Subject: UC FW: UC Airspace Change at RAF Marham - public consultation

Importance: High

Good afternoon,

By way of introduction, I am part of the team working on the Protector airspace integration that you may recall involved some airspace change above RAF Waddington. The programme now requires additional airspace to access RAF Marham as a diversion airfield. QinetiQ have been contracted to continue the airspace work and we are part-way through the Airspace Change Proposal. We are about to enter Stage 3, Consult, whereby the proposed airspace design and supporting information is published in the public domain to inform stakeholders and invite feedback.

As was the case with Waddington, a press release will be necessary to ensure appropriate reach to all affected stakeholders. For Waddington, a press release was distributed to local media outlets, including local TV, radio, newspapers etc., together with posts on the local social media platforms (RAF unit & ISTAR HQ Facebook/Instagram pages), advertising the proposal and the means by which to obtain further information and submit feedback. A reminder should also be distributed via the media half way through the consultation period (the whole period is 8 weeks). It is anticipated that the CAA might approve the consultation to commence as early as 3 June. To that end, your urgent assistance is required for implementation.

I have recently contacted the Marham MCO, but suspect we may also need additional support. I am able to provide the historical Waddington press release in draft, but for Marham, to enable quick turnaround. Please could you advise ASAP if you are still the appropriate personnel that could help, or direct me to whom I should contact to ensure the press activity is approved and actioned.

Thank you in advance,

T [REDACTED]

Subject: UC Airspace Change at RAF Marham - public consultation
Importance: High

Hi [REDACTED]

I previously contacted you regarding contact details for the local community, in relation to an airspace change application at RAF Marham for the new Protector airframe. As previously intimated, we're fast approaching the launch for the public consultation. In order to publicise the activity, we would like to send out a press release on 7 Jun 24 via the RAF Marham social media platforms and any other pertinent local press outlets.

It would be really useful if we could have a quick chat to discuss and I would be extremely grateful if you could pencil something into your calendar ASAP (but before 24 May if possible).

I can give you a precis on the proposal and the CAA-mandated actions for this consultation, as well provide an example press release from a similar previous consultation for RAF Waddington. A draft statement for the press release can be drafted on your behalf. In addition, could you also advise me of the mechanism for us (or more specifically, the Programme, Air Cap) to task the media work, as well as contacts for the wider RAF media comms hierarchy (including ISTAR FHQ, or most appropriate) to confirm the content they wish to be published, and by what means.

Your assistance would be very much appreciated. I look forward to speaking with you.

Kind regards,

[REDACTED]

Importance: High

Hi [REDACTED]

You might recall our conversation a few weeks ago, ref the press release at the mid-point of the consultation phase for the permanent DA Airspace Change Proposal (ACP) over Marham. I may well have missed it, but could you please forward the evidence of those press releases distributed at the beginning of July.

In addition, for your awareness, we have been instructed to commence engagement regarding an ACP in the vicinity of Holbeach AWR by means of a Temporary Danger Area (TDA), also for protector ops. The anticipated airspace implementation is spring 2025.

Similar to the Marham airspace, this is likely to evolve into a proposal for permanent airspace, whereby a public consultation will be necessary (although this will not be for quite a few months yet). We are advised that Holbeach does not have a designated MCO and that the RAFLO would be most appropriate contact for us to liaise with. Please could you confirm the contact details for the RAFLO and/or any other appropriate media representative it would be pertinent for us to engage with on this ACP. Should you wish to be kept informed on these new ACPs, please let me know and we'll ensure you're regularly updated.

Many thanks,

Hi [Redacted]

We're already approaching the mid-point of the consultation period for the Protector ACP at Marham – time flies!

I would be really grateful if you could arrange for a reminder to be distributed via previous press release methods. This will ensure we can demonstrate that we're attempting to reach as many stakeholders as possible. Once again, we'll need screenshots of the press release as evidence for the CAA.

Let me know if there are issues with this, but if not, hopefully we'll see some additional submissions of feedback following the reminder.

Kind regards,

Good afternoon [REDACTED]

As part of the consultation for ACP-2023-022, we're required to present evidence to the CAA of all the activities that have taken place. Please could we have evidence of the press releases being sent out i.e. emails sent to agencies, or screenshots or anything published by you?

Happy to have a phone call if I'm not being clear!

Hi [REDACTED]

Authorisation has been received from the CAA to commence Consultation for the ACP. Due to a delay in receipt of approval, the start date is adjusted to Tuesday 11 June 2024. I have amended in the text attached and also inserted the link to the Citizen Space portal.

Please could you arrange for the press release to go out ASAP and retain copies of any emails sent as well as screenshots of social media posts;

these required by the CAA as record of engagement.

Another press release is requested half way through the consultation (3 July 2024) as a reminder to stakeholders for their feedback. I'll be in touch nearer the time to confirm this will go ahead.

Thanks again for your assistance. If you have any queries, don't hesitate to get in touch.

Good Morning [REDACTED] I have just tweaked slightly as attached. As we are now in a Pre-Election Period all press releases/social media posts are having to go through to DDC (MOD) for authorisation to publish. I will push the details through to them and hopefully they will authorise it ready to go out on 10th June.

Thanks

Hi [REDACTED],

How are you getting on with preparing the press release – almost ready to publish?

We had some feedback from the CAA and they have pushed a delay to consultation launch to 10 June. I'll get back to you with confirmed dates for start and end dates. I'll also send the Citizen Space link next week.

Please could you send over the intended statement/content early ASAP so we can take a quick look.

Kind regards,

Subject: UC FW: UC FW: Airspace Change at RAF Marham - public consultation

Hi [Redacted]

As promised, I've attached the PDF of the press releases for WAD airspace change, plus a Word doc containing info regarding the Marham one.

Please could you take a look and let me know if you need any additional info in order to tweak, refine or overhaul as you see fit! I've left the webinar joining instructions but with strikethrough in case you felt it should be included. I've highlighted where dates/links are yet to be confirmed and we'll advise these as soon as possible (it might be on/after 7 June if there is delay from CAA). Let me know if there is any additional info you'd like for inclusion.

The CAA will require evidence of the press release activity, so if you could retain/forward copies of emails and screenshots at both the launch and reminder, that would be great.

Thanks again for your help.

Subject: UC FW: Airspace Change at RAF Marham - public consultation

Good afternoon,

I am currently working for QinetiQ on behalf on the MOD as part of the airspace integration team for Protector. We are in the process of an airspace change proposal (ACP) to the CAA, which would facilitate access for Protector to RAF Marham as the nominated diversion airfield. The

proposal has progressed to Stage 3, Consult, whereby the public and wider community are invited to comment on the airspace proposed (key aviation and local authority stakeholders have already been contributing through engagement at all stages of the proposal to date).

The CAA require suitable, proportionate engagement activity to ensure all potentially impacted stakeholders are offered; for previous ACPs this has been achieved via a press distributed to local media outlets (RAF unit & ISTAR HQ social media platforms, local TV, radio, newspapers etc.). During an initial meeting with RAF Marham MCO today (Alison Childerhouse; cc'd), a similar approach was suggested for the ARF Marham airspace, which was agreed as appropriate.

It is anticipated that the CAA might approve the consultation to commence as early as 3 June. Therefore, I am seeking assistance in ensuring that the press release is authorised/distributed by correct channels. As Alison has indicated that she can undertake this for RAF Marham, I have attached examples from similar airspace at RAF Waddington for your awareness and consideration as to whether any additional action might be required by your OAR (apologies that the FB page is clipped).

I would be grateful if you could let me know ASAP of any issues/ concerns/further activity/ permissions I should be addressing. If you require any further information regarding the proposal, or would like to see details specific to this press release, please do let me know. Otherwise, I intend to provide Alison with the data required to progress with an engagement launch on or around 3 June.

Many thanks,

Subject: RAF Marham Airspace Change Proposal Consultation Period

Importance: Normal

Sensitivity: None

Good Afternoon all, please see details below regarding a consultation period for a change proposal for the RAF Marham airspace. Would it be possible for you to put the details out on your social media pages so that it accessible to residents in the local area.

RAF Marham Airspace Change Proposal Consultation Period

On the 11th of June 2024 a consultation period will begin for an airspace change proposal in the vicinity of RAF Marham.

The airspace change will enable Protector RGMk1, a large Remotely Piloted Air System (RPAS), to access RAF Marham as a diversion airfield.

The purpose of this consultation period is to provide an opportunity for all stakeholders, including the general public, to comment on the proposed airspace design. This feedback will be collated and analysed by the Change Sponsor and help to shape the final proposal that will be submitted to the Civil Aviation Authority (CAA).

In accordance with UK regulation, this consultation will be undertaken through electronic communication. Details of the consultation and how to provide feedback can be found on the CAA Portal [Airspace change proposal public view \(caa.co.uk\)](https://consultations.airspacechange.co.uk/mod/acp-2023-022-consult) and on the Citizen Space website: <https://consultations.airspacechange.co.uk/mod/acp-2023-022-consult>.

An online webinar will take place on Thursday 11th July between 0900 and 1200. Presentations will be delivered at 0900, 1000 and 1100 hrs, each followed by an opportunity for Q&A. Details of how to join the webinar are available on the CAA Portal and Citizen Space website. Participants are invited to register and send questions in advance to UASCDC-ACP@qinetiq.com

If stakeholders are unable to respond electronically, written responses may be submitted to:

The Airspace Change Manager

QinetiQ

4 Alpha Court

Kingsley Road

Lincoln

LN6 3TA

The scope of this consultation is limited to the implementation of segregated airspace in order to enable Protector to operate in and out of RAF Marham as a diversion only.

The deadline for receipt of responses is Friday 2 August 2024.

Thanks
