## STATEMENT OF NEED

---

## Independent Aviation/Airspace Consultancy

Is an Independent Aviation/Airspace Consultancy involved in this proposal?

## Statement of Need

Please complete the following four sections. For administrative changes to the Aeronautical Information Publication, please complete relevant questions accordingly and mark the rest as "Not Applicable".

What is the objective of the proposed change? \*

The objective of this change is to ensure the Transponder Mandatory Zones (TMZs) which are currently notified in the remarks column of the UK AIP ENR 2.1, are also published as their own standalone airspace volumes in the UK AIP ENR 2.2 Section 4. This change is Phase 1 of a multi-phased requirement to harmonise the publication of TMZs and RMZs in the AIP, as captured under the CAA's AIP Improvement WG.

Please provide a summary of the issue or opportunity this proposal is seeking to address including any safety, operational, technical, environmental or economic factors. \*

ERNIP Part 1 defines publication requirements for TMZs and RMZs. The UK AIP is not harmonised in either respect. There are inconsistent approaches to publishing these structures: some are notified in ENR 2.1 remarks, some are published in ENR 2.2, others referenced in ENR 3.2. This requires a multi-phased project to ensure TMZs and RMZs are published in a harmonised manner. The inconsistent approach to the publication of TMZs and RMZs is a potential safety issue, raising the risk of TMZ or RMZ infringement.

Please provide a description of the current airspace design (i.e. the airspace structure and flight procedures) relevant to this proposal. \*

There are no changes to airspace design proposed.

Please provide a description of the current prevailing air traffic situation (i.e. frequency and number of movements) and an indication of estimated forecast growth (where applicable). \*

There are no changes to air traffic movements/ frequency, and no changes to growth.

Are you submitting this Statement of Need to complete an Applicability and Policy Alignment Check (please refer to CAP 1616 version 5, paragraphs 2.8 to 2.11 for further details)?

Please confirm below which section of the Aeronautical Information Publication your proposed change relates to. Please use this section to specify the exact details of the nomenclature and / or qualifying remarks you are proposing to change. If your proposal contains large amounts of information (e.g. multiple latitudes/longitudes) please supply the information on a separate email. \*

The TMZs currently notified in ENR 2.1 will be added to ENR 2.2 Section 4 using the existing table template for TMZs. No new information is being added to the AIP as part of Phase 1.

## Instrument Flight Procedures

Does your proposal have the potential to include a change to and/or new IFPs?

## Five-Letter Name Codes (5LNC)

Does this request solely concern the reservation of new Five-Letter Name Codes (5LNC) in advance of a future proposal?

## CAP 1616h Pre-Scaled Airspace Change Proposals

Does your proposed change to airspace design fall within scope of one of the Pre-Scaled Airspace Change Proposals detailed in the appendices within CAP 1616h?

**DVOR / DME / NDB Rationalisation - RNAV Substitution**

Is the proposal being progressed against the requirements set out in CAP1781: VOR / DME / NDB Rationalisation: Guidance for the use of RNAV Substitution?

**Secretary of State for Transport's priorities**

Is the proposal being progressed under any of the priorities set by the Secretary of State for Transport or any other CAA priority such as safety or national security?

**Airspace Modernisation Strategy \***

Is the proposal supporting the delivery of the Airspace Modernisation Strategy? If not, please use the text box below to explain how the proposal is not inconsistent with the Airspace Modernisation Strategy

**Additional Information**

Please use the box below to add any further information which the CAA should be aware of when considering this submission (for example dependencies on other airspace change proposals, proposed operating date(s) and/or funding deadlines)

Please note that the Airspace Regulation team will contact you to acknowledge receipt of your Statement of Need and to confirm the unique ACP reference number (ACP-YYYY-NNN) allocated to this submission. Following receipt of your unique ACP reference number, you will be required to create an associated airspace change proposal on the **CAA's Airspace Change Portal** (<https://airspacechange.caa.co.uk/>). Please refer to CAP 2385 Airspace Change Portal Important Information Guide.

Given the high number of new airspace change proposals (ACP), together with those proposals which are already in the system, it is possible that the proposal may not be assigned to a Technical Regulator/Account Manager immediately following submission of the Statement of Need. New proposals are allocated on a first come first served basis, unless the proposal is directly related to safety or national security matters, or as directed by the Secretary of State for Transport's priorities.

Once your submission has been assigned to an Account Manager/Case Officer, arrangements will be made for you to attend an Assessment Meeting. One of the key outputs from this meeting will be an indicative timeline for the proposed ACP. For Permanent changes (Level 1 and Level 2 only), to enable the CAA to consider your proposed timescales, you will be expected to present dates for the following milestones at the Assessment Meeting:

- DEFINE Gateway
- DEVELOP & ASSESS Gateway
- CONSULT Gateway
- Formal Airspace Change Proposal Submission
- DECIDE Gateway
- Target AIRAC

The CAA holds Gateway Assessment Meetings on a monthly basis and the annual schedule is published on the **CAA's airspace change portal** (<https://airspacechange.caa.co.uk/about-airspace-change/>).

Finally, you should also note that from September 2018 any amendments submitted by a Data Originator or ANSP for onward promulgation in the UK IAIP will be subject to the Aeronautical Data Quality Requirements. See Regulation (EU) No. 73/2010 as retained (and amended in UK domestic law) under the European Union (Withdrawal) Act 2018 and **CAP 1054: Aeronautical Information Management** (<https://publicapps.caa.co.uk/modalapplication.aspx?appid=11&mode=detail&id=6808>) guidance material for further information. These requirements will be discussed in greater details during the course of your initial meeting with the CAA.
